## MINISTRIES

### OUTREACH THROUGH TECHNOLOGY

Outreach through technology is our mission by making the Gospel of Jesus Christ known across the globe through technology solutions; to assist the local church and ministries to do the same using those tools; and to provide service and quality with excellence. OTM provides dedicated server hosting solutions and by providing an enterprise class product, we can price our solutions competitively. Our goal is to bring a Data Center secured environment to every Church we touch with our personal and dedicated team. The OTM platform of services can provide technology resources to assist your ministry from virtual desktop solutions to IPTV solutions.

Microsoft

#### FEATURES AND BENEFITS

- Single source provider.
- Providing 90% of what churches need in a solution at a lower cost much lower than purchasing individual services.
- 120 Citrix certified techs across the country.

#### MANAGED DESKTOP COMPUTERS

- Managed desktops services pro-actively eliminates problems, downtime, and costly remediation efforts due to security holes and malware.
- Eliminate costly upgrades and extend the lifetime of existing hardware from 3 to 5-7 years by accessing applications in the data center vs running them on the local computers.

#### DESKTOP SUPPORT

- Pay as you go application support limits costs, dollars aren't being spent for unused services.

#### SUBSCRIPTIONS SERVICES

- Licensing software per user vs loading software on every desktop is more cost effective.
- Subscription based services means applications can be accessed from everywhere (iPhone, Terminals, PC Browsers, etc)

#### OTHER BENEFITS

- Free up much needed in-house resources to work on outreach related projects vs network and computer management task.
- Data center managed and monitored solutions are inherently more secure and reliable.
